Mr. Yash Prasad

Date of birth: 27. 07. 2004 **Nationality:** Indian **Email address:** yashprasad2704@gmail.com
Web: https://www.kickresume.com/cv/yash-prasad/

Profile

Mechatronics Engineering graduate with hands-on expertise in robotics, embedded systems, computer vision, IoT, and industrial automation. Experienced in developing autonomous drone systems, STM32-based embedded solutions, and Industry 4.0 applications for automotive manufacturing. Proficient in Python, C++, Embedded C, OpenCV, and automation technologies. Passionate about advancing AI/ML and smart manufacturing.

Education

B. Tech / B.E. | Mechatronics Engineering
Symbiosis Skills & Professional University
07/2022 – 07/2026 Pune, India

Work Experience

Project management intern
FIAT INDIA AUTOMOBILES Pvt. Ltd.
01/2026 – 07/2026 Pune, India
- Implemented Industry 4.0, Poka-Yoke, and IoT-based automation projects within the automotive Body Shop.
- Contributed to a Safety LOTO Integration project using RFID and visual analytics to improve robotic welding cell operations and monitor operator safety.

Research and development intern
iTech Robotics & Automation Pvt. Ltd.
06/2025 – 07/2025 Pune, India
- Optimized STM32MP1-based embedded systems, increasing overall system performance by 30%.
- Designed an educational drone with a 3 kg payload capacity and integrated real-time computer vision for object detection, achieving 72% accuracy during live field tests.
- Mentored over 10 students in flight control and automation by leading autonomous drone system training workshops.

IoT Intern
EasyReach Solutions Pvt. Ltd.
06/2024 – 07/2024 Pune, India
- Facilitated IoT device-to-cloud system integration to ensure seamless and reliable data transmission across hardware and cloud platforms.
- Developed and deployed real-time data monitoring dashboards leveraging MQTT and HTTP protocols.
- Automated sensor-based workflows, reducing manual intervention and boosting operational efficiency.

Engineer (internship)
Maheshwari International
06/2023 – 07/2023 Pune, India
- Assisted in CNC/VMC machine reconditioning and programming, applying mechatronics and engineering principles to machine troubleshooting and maintenance.
- Contributed to preventive maintenance activities and troubleshooting efforts that improved machine uptime by approximately 15%.

Skills

– LANGUAGES

Hindi Native	**Marathi** Native	**English** Professional

– PROGRAMMING

Bash Scripting	**Python**	**C / Embedded C**

– COMPUTER VISION AND AI

OpenCV	**YOLO**	**Object Detection**
Object Tracking	**Machine Learning**	

Skills

– EMBEDDED SYSTEMS

STM32 | Raspberry pi | Arduino

– INDUSTRIAL AUTOMATION

AB PLC | Siemens PLC | Ladder Logic

HMI | Ethernet / IP | Industrial A/D Sensors

IoT

– ENGINEERING SOFTWARE

Ansys | Catia V5 | KiCAD

Certificates

Certificate of Presentation
CVR 2026 ; NIT Goa ; Springer
04/2026
(Ref No: SCRS/CVR 2026/PC/01240)

Drone Technology Workshop
Symbiosis Skills & Professional University
12/2025
Resource Person and Organizer

Robotics in a Day: From Concept to Creation Workshop
Symbiosis Skills & Professional University
04/2025
Resource Person and Organizer

Complete Data Science, Machien Learning, DL, NLP Bootcamp
Udemy
03/2025

eLSI: Basics of Embedded Systems and Robotics
Eyantra, IIT Bombay
09/2024
In Examination, achieved 90/100 marks

Publications

An Extensive Exploration in Integration of Robotics toAmplify Efficiency within Logistics through Automated Storage and Retrieval Systems.

Publications

Autonomous Modular Multi-Payload Aerial System with Adaptive AI ControlArchitecture
Office of the Controller General of Patents, Designs & Trade Marks, Government of India
05/2026
Design Patent, CBR Number: 210968

Conferences

6th International Conference on Computer Vision and Robotics
CVR 2026 ; NIT Goa
Awarded an official Certificate of Presentation for delivering the technical defense of the peer-reviewed paper,“Autonomous Modular Multi-Payload Aerial System with Adaptive AI Control Architecture”.
